STUDENT GOALS

What kind of math behaviors would you like to see? List them below:

MEASUREMENT:

- Can solve problems involving money
- Can give accurate change
- Can count money
- Can tell time to the hour
- Can tell time to the minute

DATA ANALYSIS:

- Can complete a pattern
- Sort like items
- Can read a graph
- Can tell time to the hour
- Can tell time to the minute

SCHOOL ASSISTANCE:

Has your child received any extra testing for math? Yes No

Please tell me in more about the results of this test.

Is your child receiving any extra help while in school? For example, a pull out math class or one-on one math practice with another adult? Yes No

If you responded yes, can you tell me the frequency and duration of this extra help?
