

# MATH SURVEY

Middle/High School

Student Name:

## STUDENT FAVORITES

SPORT:

GAME:

FOOD:

RELAX:  Inside  Outside

COLOR:

HOBBY:

SEASON:  Summer  Fall

Winter  Spring

### BEHAVIOR AND ATTITUDE:

- Gives up quickly
- Avoids math homework
- Number reversals
- Forgets steps for solving quickly
- Poor test taker
- Gives good effort
- Math has always been a struggle
- Homework takes longer than it should

### NUMBERS AND OPERATIONS:

- Can add and subtract within 10
- Uses fingers to compute
- Can count by quantities
- Perform operations w/ fractions
- Decimal operations
- Solves basic word problems
- Works with integers
- Writes equations
- Estimates correctly

### MATH FACTS (recalls without hesitation):

- Addition/subtraction (0-12)
- Multiplication (0-10)
- Division

### GEOMETRY:

- Use measurement tools
- Can identify lines, circles, angles
- Solves for area and perimeter

# MATH SURVEY

Middle/High School

## STUDENT GOALS

What kind of math behaviors would you like to see? List them below:

### MEASUREMENT:

- Can count money
- Can give accurate change
- Can solve problems involving money
- Can solve problems involving time

### DATA ANALYSIS:

- Can complete a pattern
- Sort like items
- Can read a graph
- Knows how to graph
- Can plot points of data

### ALGEBRA:

- Uses order of operation
- Solves multi-step problems
- Solves for a variable
- Writes algebraic equations from a word problem

What is your child's number one frustration with math?
